

5.1: Template

This template can be cut out and used as a guide.

Please check it's printed to scale before use!

MEASURING: SIDE SASH BAY TEMPLATE

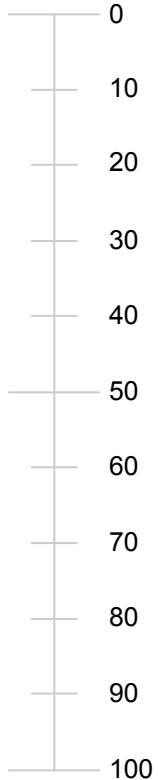

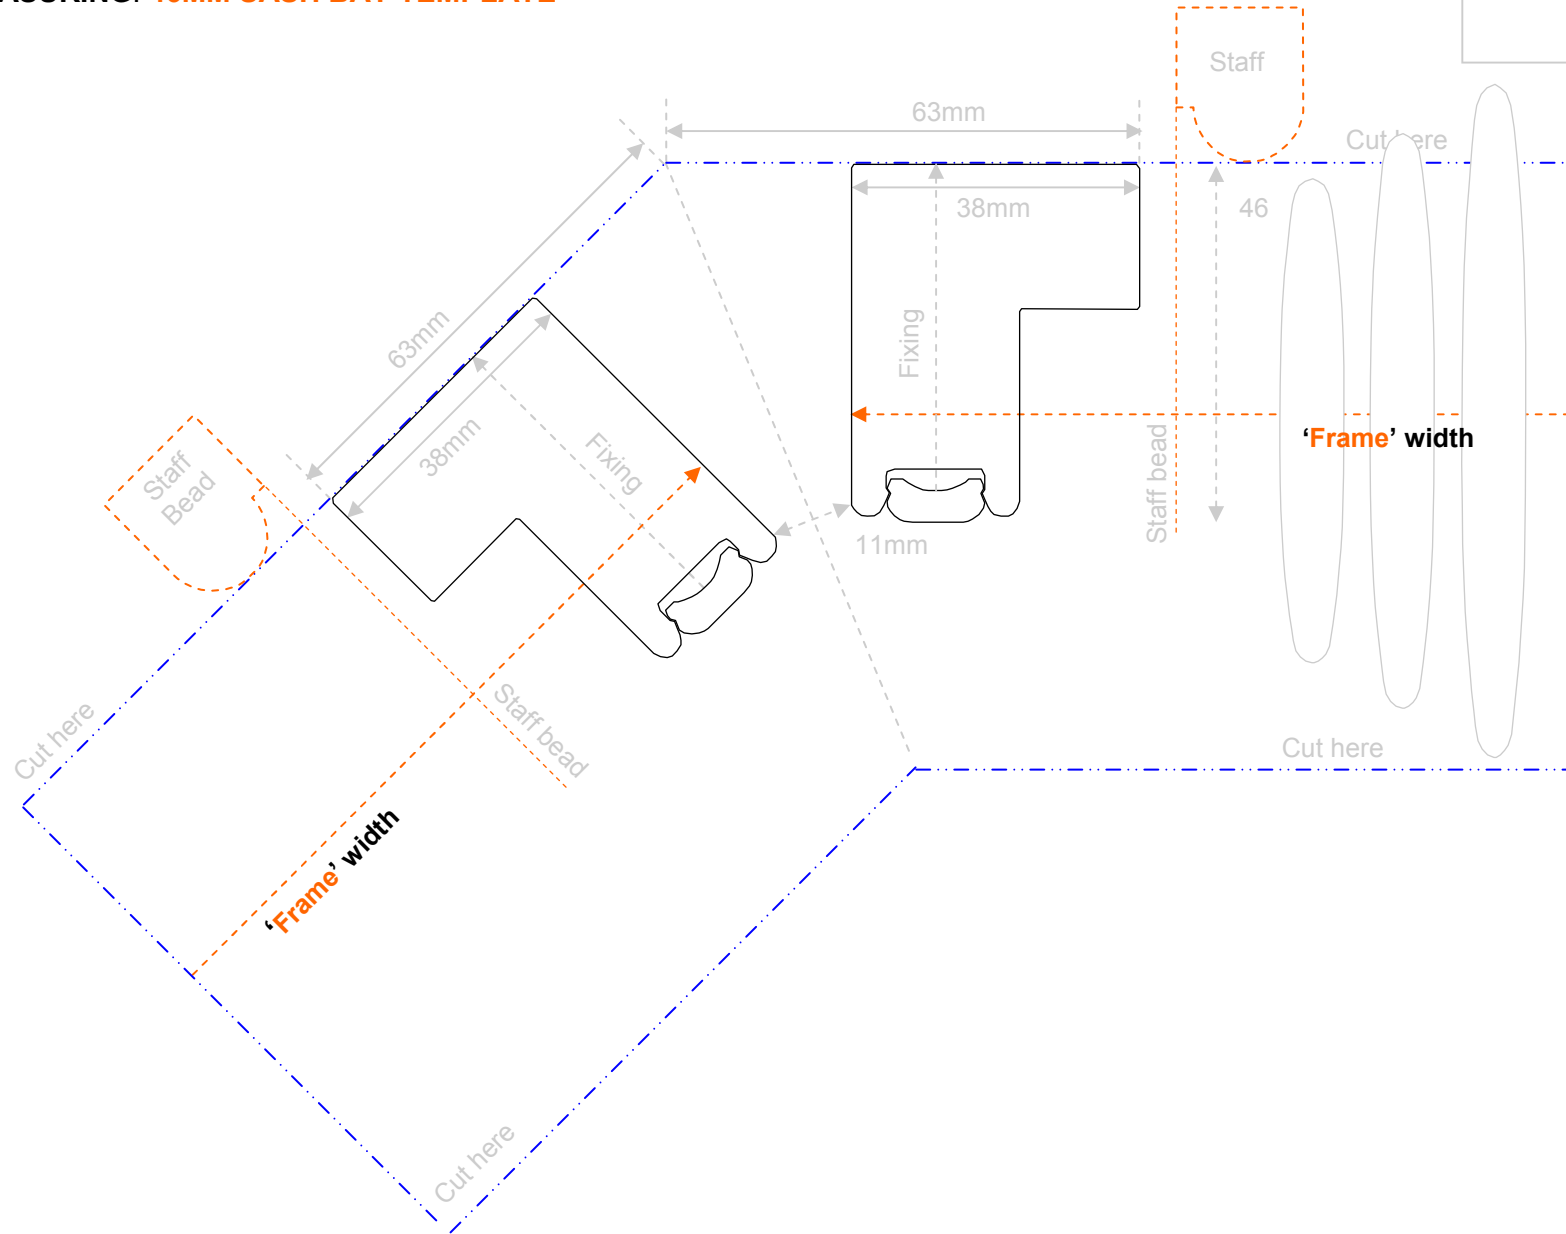

- Cut along the relevant blue lines (+ centre line).
- Place the templates on the side windows (far left/right).
- Measure the width from frame to frame.

- Standard frame = 46mm deep.
- Optional 60mm & 76mm frames provide extra clearance.
- 5mm side clearance required between the shutter frame and architrave.
- Ordering 'Frame' size = **no** clearance deducted.
